 9 sewer connection or disposal permits, residential driveway approach permits, temporary
 10 construction power pole permits, and those for a temporary construction shed that is

12 This subsection (g) shall not apply to roof covering repairs, which are prescribed
 13 by subsection (a), or to residential aluminum patio covers constructed in addition to
 14 existing buildings, which are prescribed by subsection (i).

15 The adjusted floor area used in "Table B" shall be computed by multiplying the
 16 actual area of each use as determined from exterior dimension, by the appropriate
 17 factor from "Table A":

18	(1)	TABLE A	
19		USE FACTOR	
20	(A)	Living areas, including basements and cellars	1.00

2	(K)	Milking barns	0.80
3	(L)	Agricultural building-with open sides	0.20
4	(M)	Other agricultural buildings	0.50

5 When converting from one use to another use, the factor shall be the difference
6 between the factor for the new and the factor for the existing use (i.e., when converting
7 a garage to living area the factor will be 1.00 less .50 = .50).

8 For remodeling, repair, alteration and rehabilitation in existing buildings, the
9 factor is to be determined by dividing the valuation of the new work by the valuation of
10 the existing building. The factor and square footage are to be determined by the
11 pre-alteration inspection.

gate fee (including any applicable perchlorate add-on fee) for such waste.

5 (3) Solid waste management disposal site fee for sites which do not charge a
6 fee upon entrance. Disposal facility users who have not paid a disposal
7 facility usage fee as a part of a land use fee, contract arrangement with the
8 Solid Waste Management Division, or through refuse hauler permit fee shall
9 pay a fee equal to the respective ordinary refuse, tires, and other fees (as

13 Notwithstanding any other provision of this section 16.0222, the method of
14 calculation of the disposal facility usage fee owed by a city or any other user of a refuse
15 disposal site may be established by written agreement between such city (or other user,
16 as the case may be) and the County. Upon expiration or termination of any such written
17 agreement, the disposal facility usage fee otherwise set forth in the appropriate
18 subsection of this section 16.0222 shall again be applicable.

consistent with either:

- (1) The number of Equivalent Single Family Residential ("ESFR") units contained within the municipal boundary and computed at the current ESFR rate applicable to the unincorporated area of the County surrounding said City; or
- (2) By measured estimates of annual tonnage delivered to County landfills and computed at the current rate per ton charged at the refuse disposal site located nearest to said City.

Current Department of Finance population estimates for each city shall be used as a basis for determining the population of each city. Per capita rates, when requested, shall be available only to haulers serving cities having contract use agreements with the Solid Waste Management Division. Payment of the permit fee shall not constitute payment of any fee required in section 16.0222 for the disposal of tires or the handling of hard to handle or special handling items.

(g) Contractually Set Disposal Fee:

Notwithstanding the provisions of subsection 16.0222(f), the method of calculation of the permit fee set forth in subsection 16.0222(f) and the entity obligated for the payment thereof may be established by written agreement between any city and the County. Upon expiration or termination of any such written agreement, the permit fee as provided in subsection 16.0222(f) shall again be applicable.
